

IM/2019/062

T.M.H.K. TENNAKOON

Assignment No-01

Due date- Monday, 23 August 2021

### Flow Chart

```

#include<iostream>
using namespace std;
int main()
{
    //defining, purchase-amount of purchase, tendered-amount of cash tendered,
    balance=balance money

    int purchase, tendered, balance

    // defining, number of bills/notes and coins

    Int bill-5000,bill-2000,bill-1000,bill-500,bill-100,bill-50,bill-20;

    Int coin-10,coin-5,coin-2,coin-1;

    //getting user inputs, assign them and output the 'balance'

    cout<<"Please enter the amount of purchase.."<<endl;

    cin>>purchase;

    cout<<"Please enter the amount of cash tendered.."<<endl;

    cin>>tendered;

    balance=tendered-purchase;

    cout<<"Balance is"<<balance<<endl;

    //calculations for the final result, calculate how many numbers of notes/coins from each
    bill-5000=balance/5000;
    balance%=5000;
    bill-2000=balance/2000;
    balance%=2000;
    bill-1000=balance/1000;
    balance%=1000;
    bill-500=balance/500;
    balance%=500;
    bill-100=balance/100;
    balance%=100;
    bill-50=balance/50;
    balance%=50;
    bill-20=balance/20;
    balance%=20
    coin-10=balance/10;
    coin-5=balance/5;

```

```

balance%=5;
coin-2=balance/2;
balance%=2;
coin-1=balance/1;
balance%=1
//user sees how many notes and coins he/she should collect

cout<<"5000 notes-"<<bill-5000<<endl;
cout<<"2000 notes-"<<bill-2000<<endl;
cout<<"1000 notes-"<<bill-1000<<endl;
cout<<"500 notes-"<<bill -500<<endl;
cout<<"100 notes-"<<bill-100<<endl;
cout<<"50 notes-"<<bill-50<<endl;
cout<<"20 notes-"<<bill-20<<endl;
cout<<"10 coin-"<<bill-10<<endl;
cout<<"5 coin-"<<bill-5<<endl;
cout<<"2 coin-"<<bill-2<<endl;
cout<<"1 coin-"<<bill-1<<endl;

return 0;

}
